

FBO

```
graph BT; GBuffer[GBuffer] --> FBO[FBO]
```

A diagram illustrating a data flow from a GBuffer to an FBO. The GBuffer is represented by a gray rectangular box at the bottom, and the FBO is represented by a white rectangular box at the top. A dark blue arrow points vertically from the top of the GBuffer box to the bottom of the FBO box, indicating that the GBuffer provides input to the FBO.
